SCRUM MASTER E-LEARNING

LEARN ABOUT THE ROLE OF SCRUM MASTER AND HOW TO SUPPORT THE AGILE DELIVERY!

This e-learning course allows you to become Scrum Master certified PSM1 (from [scrum.org](https://www.scrum.org)) at your own pace. You will learn the relevant principles, methods and tools you need to create a successful scrum team as a leader.

Scrum is an agile framework tool for delivering products in a complex world. The scrum master training deals with how to work with the agile scrum team and how the scrum master can ensure value creation in the scrum team.

A high performing scrum team contributes to the success of the agile delivery, and scrum master helps steer the team in the right direction.

TARGET GROUP FOR THE COURSE

The course is for anyone who wants better insight and competencies within agile and would like to achieve an internationally recognized certification.

- Intended for everyone involved in product development using Scrum.
- This is especially beneficial if you are responsible for or contribute to getting the most out of scrum in your organization, it can be as a scrum master, leader / team leader or scrum team member.
- The course is also relevant for you who want to better understand the agile principles and methods.

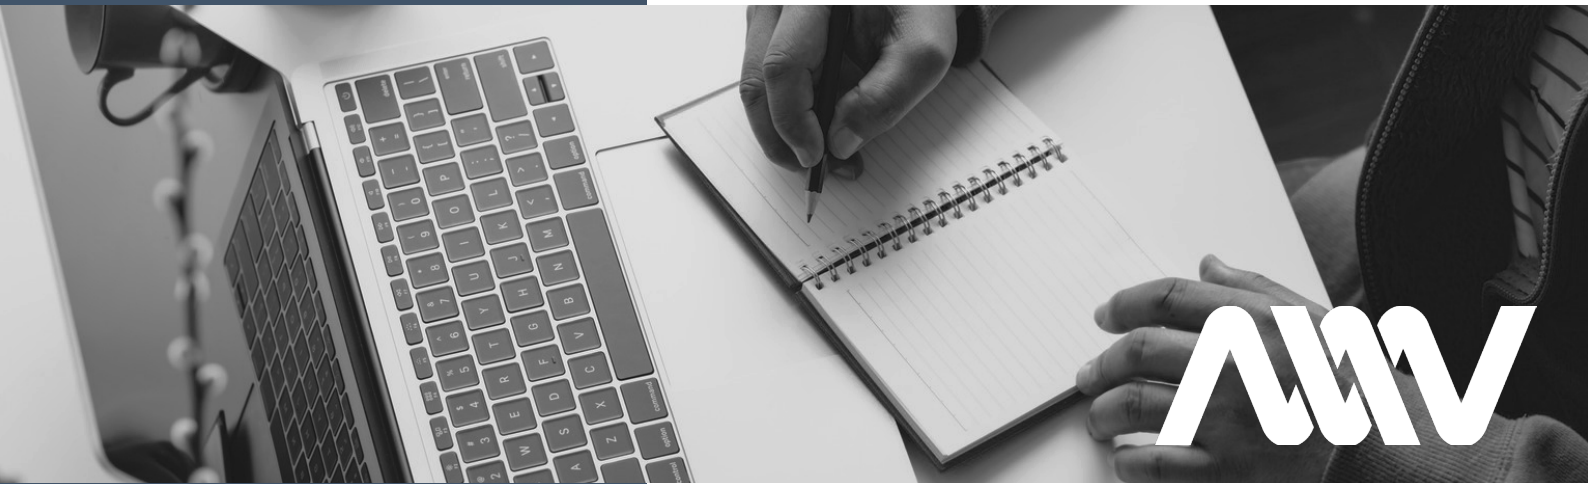

OUTCOME FOR THE STUDENT

- An internationally recognized certification as a Scrum Master
- Solid understanding of the agile methods, and understanding of the individual elements of Scrum and how they are applied in practice
- Be able to facilitate and drive development in a Scrum team as a servant leader for Scrum Teams
- Get skills to drive change.
- Learn best practices in agile development and delivery with concrete tools and techniques

OUTCOME FOR THE ORGANISATION

- Faster deliveries adapted to market / customer needs
- Teams that will be able to deliver quality products and take responsibility for development
- Optimized coherence and understanding of the whole picture across teams
- Better performance in teams through better collaboration
- Agents of change who activate a culture where everyone can flourish

ONLINE COURSE

PREREQUISITES

There are no formal requirements for participation in the course.

It is an advantage, but not a requirement, that you have knowledge of agile project management or agile development.

LEARN MORE AND FASTER

LEARN WHEN YOU WANT, WHERE YOU WANT

This is an e-learning course on the adaptive platform Rhapsode Area9.

With adaptive e-learning, you can take the course at your own pace. This means that you can access the learning at any time and follow the modules at your own pace. E-learning automatically adapts to your way of learning and your level of knowledge.

Included in the course is access to e-learning, certification, and the book "Scrum Done Right", which is a good support tool for the daily work as a Scrum Master.
